

Flexible Heli-Tank

The Heli-Tank is a collapsible tank designed primarily to be slung beneath helicopters to fly fuel rapidly to remote or inaccessible locations.

The specifically designed shape of the tank enables stable flight when full or partially full, enabling partial off-loading on route.

Specifications

Volume	Dimensions
500L (131 Gal)	Base: 1.2m (3.9ft.) Diameter Height: 0.6m (23") Weight: 28kg (62lbs)
1000L (262 Gal)	Base: 1.35m (4.4ft.) Diameter Height: 0.8m (37.2") Weight: 40kg (88lbs)

Additional sizes are available upon request.
